Plan Consistency

The petition is **inconsistent** with the *Belmont Area Revitalization Plan's* (2003) recommendation for multi-family uses up to 22 dwelling units per acre (DUA) for parcels abutting Parkwood Avenue and single family uses up to 5 DUA for the parcel fronting Allen Street.

Rationale for Recommendation

- The proposal for 3,000 square feet of retail space achieves the Plan's economic development goal by increasing retail services within the Belmont Neighborhood.
- The request is consistent with uses already allowed by-right in the B-1 zoning district directly across Parkwood Avenue

- The requested density of 23.9 DUA is reasonable variation in density from the recommended density of 22 DUA for a majority of the site.
- The proposal achieves the Plan's goal of creating a more pedestrian friendly community and improves vehicular flow by committing to inter-parcel connectivity with petition number 2019-156.
- The proposal's units along Allen Street are oriented in a way that is compatible with existing residences along the street, in particular by providing pedestrian connections from the sidewalk to the front door and by matching front setbacks. This compatibility is one of the Plan's guiding principles to assist in achieving the overall vision for Belmont.

The approval of this petition will revise the adopted future land use as specified by the *Belmont Area Revitalization Plan*, from multi-family up to 22 units per acre and single family uses up to 5 units per acre to residential/office/retail for the site.

• Existing Zoning and Land Use

The site was most recently rezoned in 1988 (1988-075) from B-1 (neighborhood business) to R-6 (residential). The subject property is surrounded by a largely residential area within the Belmont community with frontage along Parkwood Avenue. Parcels zoned B-1 are located directly across Parkwood. Institutional uses, including Villa Heights Elementary and Cordelia Park, are within walking distance.

General location of subject property denoted by red star.

Streetview looking south toward the subject property. General rezoning boundary outline in pink.

Surrounding neighborhood context. Homes along Allen Street are largely single-story structures with connections from the front door to the sidewalk.
